COURSE OBJECTIVES

- Demonstrate an in-depth knowledge of laparoscopic techniques for colorectal surgery.
- Identify outcome of laparoscopic surgery.
- Identify strategies to integrate laparoscopic colorectal surgery into a participant's current surgical practice.
- Explain management strategies for intra- and post-operative complications.

TARGET AUDIENCE

General and colorectal surgeons, and advanced surgical trainees who have an interest in developing their laparoscopic skills for colonic and rectal resection.

FACULTY

Craig Lynch **MBChB, MMedSci, FRACS**

Craig completed his General Surgical Fellowship in New Zealand. Post-fellowship training in Colorectal Surgery included two years at the Cleveland Clinic, Cleveland, Ohio, where he gained extensive experience in laparoscopic surgery. Following a further year at St Vincent's hospital in Melbourne, Craig returned to New Zealand to continue his experience especially in laparoscopic colorectal resection for cancer and endometriosis.

Currently Craig is appointed as consultant colorectal surgeon at the Peter MacCallum Cancer Centre, Box Hill Hospital, and lecturer at Monash University in Melbourne. He is a member of the Colorectal Surgical Society of Australia and New Zealand

Alexander (Sandy) Heriot **MA MB BChir MD FRCS (Gen.) FRCSEd FRACS**

Sandy's colorectal surgery training has been extensive, including St Marks Hospital, London, the Cleveland Clinic, Cleveland, Ohio, and St Vincent's Hospital in Melbourne. His current positions are as consultant colorectal surgeon at the Peter MacCallum Cancer Centre and St Vincent's Hospital, and Senior Fellow at The University of Melbourne.

Performing and teaching laparoscopic surgery are a routine part of his clinical practice.

He is a member of the Colorectal Surgical Society of Australia and New Zealand, and committee member for the International Society of Laparoscopic Colorectal Surgery.

Audrey Yeo **FRACS**

Covidien Colorectal Surgery Fellow, Peter MacCallum Cancer Centre
